

Run Instructions

macOS / Linux

```
go run main.go  
#then provide number
```

```
# Build and run  
go build -o swapdfs  
./swapdfs
```

```
# Timing-only mode  
FMI_TIME_ONLY=1 go run main.go
```

Windows (PowerShell)

```
go run .\main.go
```

```
# Build and run  
go build -o swapdfs.exe  
.\swapdfs.exe
```

```
# Timing-only mode  
$env:FMI_TIME_ONLY = "1"; go run .\main.go
```

PS: Provided my initial solution without using the Zobrist table that only does not pass the time test.
